Members were asked to consider and note the contents of the report and support the actions set out.

Members noted:

- The College continues to recruit a high proportion of SIMD 1 and 2 students and outcomes should be considered in that context, with evidence of improvement despite significant challenge.
- Overall outcomes remain strong, although persistent inequalities continue across a number of protected and intersecting characteristics, requiring a coordinated whole-college response and supporting interventions.
- Progress has been made in increasing the number of BAME colleagues through enhanced recruitment activity.
- A positive culture continues to be reflected in staff feedback, with ongoing leadership required to embed the Equality Outcomes across the College.
- Performance dashboards are being further developed to support clearer analysis and reporting against strategic priorities, including Equality Outcomes.
- Equality Outcome Leads have been established to strengthen leadership, development activity and delivery planning.

The Committee acknowledged the outstanding work taking place across the College to support the achievement of the Equality Outcomes and the value of the reflective data analysis presented. It was also noted that the comprehensive student and staff support services within Ayrshire College promote a culture of confidence to declare disability and thereafter receive wrap around support.

- Financial Regulations and Compliance & Non-SFC Income reviews both provided strong assurance with no recommendations.
- Reports supported assurance that the College's financial control environment, governance arrangements and commercial income processes remain robust.
- Ongoing oversight will focus on implementation of the BluQube finance system, workforce capacity within enterprise activity, cross-college support for income growth and the quality and timeliness of financial reporting.
