

13. Student Funding

Students who are Carers

A carer is anyone, including children and adults, who looks after a family member, partner or friend who needs help because of their illness, frailty, disability, a mental health problem or an addiction and cannot cope without your support.

As a carer, it is important to know that if you are in receipt of Carer's Allowance and studying on a full-time basis that you cannot continue to receive this benefit and that you must apply to the College or SAAS for your financial support. If you claim Universal Credits that includes an amount because you have caring responsibilities, then you may be able to remain on Universal Credits, however this does not apply to all students, and you are advised to seek further advice.

The new Carer Support payment however is replacing Carer's Allowance, so it is important to notify the DWP of your intentions to study full-time. This replacement benefit does not count as income which means you can study full-time, receive student funding, as well as the new Carer's Support payment (*subject to meeting Social Security Scotland eligibility rules*).

Full-time courses consist of a minimum of 21 hours per week, even if you are not timetabled or taught for this number of hours. This is the definition of all full-time courses as it includes not just classes, lectures and seminars, but also individual study for course work.
